1.

2.

3.

4. Plegar una Base Bomba de Agua

5.

6.

7.

8.

9. Desdoblar y repetir de 7 a 9 en el lugar indicado

10. Realizar un hundimiento abierto.

11.

12. Realizar Un pliegue aplastado (squash fold)

13. Paso intermedio simplificando líneas

14. Pliegue aplastado terminado (squash fold finished)

15.

16. Doblar como se indica

17.

18.

19. Zoom para realizar las garras.

20. Marcar

21. Marcar

22. Marcar

23.

24.

25.

26. Marcar

27.

28.

29.

30.

31.

32.

33. Zoom

34. Marcar

35. Abrir Capa

36. Hundir y cerrar capa

37.

38.

39.

40. Plegar como se indica.

41.

42.

43. Realizar un Hundimiento abierto

44. Cambiar de sitio la sección interior señalada

45.

46. Cambiar el punto de vista y abrir toda la sección.

47. Plegar los valles y los montes como se indica.

48.

49. Marcar

50.

51.

52. Marcar.

53. Plegar como se indica.

54.

55.

56.

57.

58.

59. Al subir las puntas que formarán las alas hay que hundir a la vez la punta central interna escondida.

60.

61. Bajar Puntas

62.

63. Bajar solo una punta.

64. zoom

65.

66.

67.

68.

69. Plegar como se indica

70.

71. zoom

72.

73.

Marcar las líneas indicadas, con una inclinación de 67.5° con respecto a la horizontal. Primero marque 45° y luego si los $67.5^\circ \dots 45/2$.

74. Pliegues escalonados o Crimps para comenzar a curvar la cabeza.

75. Plegar en montaña como se indica, al tiempo que se bajan las capas correspondientes al cuerpo.

76.

Subir puntas, al tiempo que curvamos el papel para formar los ojos y bajamos la punta correspondiente al pico.

77. Cambiar punto de vista

78.

79.

Realiza un pliegue Hundido cerrado de la sección indicada.

80.

81.

82. Vista lateral "sin alas ni cola" para simplificar el dibujo y presentar detalles de las capas que se movieron en el paso anterior, así como la posición de la cabeza.

83.

84.

85. Subir Punta

86. Marcar

87.

88.

89. Plegar como se indica...8 Veces

90.

91.

92. Marcar

93. Marcar

94. Solo plegar la primera capa, Dándole Volumen a la cola.

95.

96.

97.

98.

99.

100. Separar garras

101. Vista isométrica

102.
